Up to 8 hours battery life^

How would you like to get B+ hours battery life – a whole working day - with just one charge? Well now you can thanks to carefully chosen low power consuming components such as the recently introduced Intel® ultra-low voltage (ULV) processors technology and LED-backlit displays. The low energy consumption of the innovative Intel ULV processors means you get incredibly long battery life without a reduction in performance. Intel's ULV technology offers the high performance we have come to expect from notebooks based on Intel® technology in new ultra-thin, ultra light, highly desirable designs.

^Disclaimer: Your computer's battery life may vary depending on product specifications, computer settings, and applications or features launched. The listed battery life is for individual battery packs tested with MobileMark 2007 in productivity test mode and with wireless connection on. All batteries' maximum capacity will diminish with time and use. Battery life indicated is with Acer PowerSmart Manager enabled. 2007 test results for the Acer TravelMate 8000. Battery life will vary based on your configuration. The MobileMark2007 benchmark does not include DVD playback. See http://www.acer.com.au for more information.

Laptop Locker to Secure Notebooks & Netbooks.

The Laptop Locker is a secure, user friendly and compact trolley designed for storing and charging up to 14 laptops. The power boards supplied for recharging are overload protected and ample provision has been made in the design for tidy cable management.

- Compatible for storage of both Notebooks and Netbooks.[1]
- Unique Double sliding locking bar for security and ease of use.
- High Quality soft rubber pivot castors for easy maneuverability.
- Rear section for cable management, storage of transformers and overload protected power boards.
- Anchor point to secure to floor.
- Injection Molded plastic inserts to support and protect your Notebooks.

"Planting 1 Million Trees"

This special edition of the Acer K12 Buyers Guide is dedicated to a noble cause of **planting one million trees in Australia.**

Scientists have warned us that the current carbon emission levels are causing global warming. The issue of climate change is real, not only for our generation but also for the generations to come.

At Acer we don't pretend we can solve the world's problems, but by taking the position of a corporate citizen we aim to make a positive impact and a small contribution to the environment. Acer is interested in reducing carbon emissions, in particular those emitted by computing devices.

Planting trees is an effective way to reverse the effects of carbon dioxide emissions through photosynthesis. Revegetation is also an integral part of any global climate change program. On average, 1.4 tonnes of timber contain 1 tonne of carbon. These largely continue to be stored in the timber even after havesting.

Acer is committed to do our part for the environment. Since 2008, we have successfully planted more than 31,000 trees, this equates to offsetting more than 5,000 tonnes of carbon dioxide. Our goal now is pure and simple, we want to accelerate our tree plantation process, and with your help, Acer will plant a million trees within the next 2 years. To kick start this effort, for every purchase of a system in this "Green" edition of the Acer K12 Buyers Guide Acer will plant up to 10 trees in Australia.

Please support us in our goal and at the same time enjoy Acer's award winning range of products at great value prices.

For more information on carbon footprint and our tree planting efforts, please visit the website of Acer's environmental partner: Trees For Life – www.carbonneutral.com.au

True Small Form Factor PC

Veriton X480G powered by Intel® Core™2 Duo

The Veriton X480G desktop PC offers a choice of powerful Intel® processors and up to 8 GB of DDR3 memory to handle the most challenging office tasks. This compact PC also packs a host of Acer software applications for convenient system management and dependable security. To top it off, the Veriton X480G has passed rigorous certification tests to cut your costs, while caring for the environment.

WHY ACER DATA PROJECTOR?

Acer Projectors extend productivity potential without going over budget. They are easy to use, come in attractive design, and feature the latest technologies for superior usability

Plug and play connectivity | Empowering Technology for simple set up and use | DLP™ technology | Slim, compact design

Acer Privilege Program

Get Privileged Now!

There's more to our commitment to schools than just providing the highest quality desktops, notebooks, LCD monitors, data projectors and enterprise solutions.

Acer is pleased to announce the Acer Privilege Program, a program designed to reward schools, from kindergarten through to year 12, for purchasing Acer products.

Based on the quantity of Acer products purchased through Acer Authorised Education Resellers, schools can earn points, which can be used to claim merchandise from our Redemption Catalogue. The more points you have the more you can reward your school.

Simply log onto www.acer.com.au/privilege

It's that easy.

Altos Servers – Solutions for all environments

The Altos G540 M2 is a 5U pedestal server that boasts a complete package for cost-effective usage. Featuring the latest Intel® processor technology, fast DDR3 memory and large storage capacity, the Altos G540 M2 can serve web applications, e-mail, FTP and other heavy-loading programs with ease. With reliable security, assured availability, maximised productivity, intuitive manageability, efficient serviceability and a strong commitment to environment-friendly operation, Altos G540 M2 servers are a beneficial addition to your school.

All Altos G540 M2 servers include EasyBUILD™, a user-friendly interface that allows rapid server provisioning through cloning, an enhanced post-setup guide for installing applications or utilities, and an easy-to-use resource kit disc with software documentation. EasyBUILD™ helps set up a group of identical servers to get software and services running in less time.

Thinking about Virtualising?

Less can definitely run more. New Windows Server 2008 changes the game with innovations that give your servers legs of steel, no matter the workload. When you have a server that runs faster, longer, more securely, and with less downtime, it can transform your day, your department, and your whole school. Just give it your command, and get on with your day.

STORAGE SOLUTION

acer | HITACHI DATA SYSTEMS

Hitachi Simple Modular Storage SMS100

The Hitachi Simple Modular Storage, SMS100, is a simple and reliable entry level SAN that offers enterprise-class storage and data protection features. The SMS100 is ideal for small schools that need a reliable and highly available storage system that is easy to install, manage and integrate with Microsoft® Windows and other common applications.

Key Features

- Hitachi SMS100 2U Storage Array
- iSCSI or Fibre Channel connectivity
- Dual Active Controllers for performance and redundancy
- Available in 6, 8 and 12 Disk configurations
- High Speed SAS or High Capacity SATA Disks available
- RAID 6 for maximum data availability
- 3 Years Advance Exchange Warranty**

From $11539*

Privilege Points: 40

Adaptable Modular Storage AMS2000 Family

The AMS2000 family of storage arrays feature Dynamic Load Balancing Controllers, which provide integrated, automated hardware-based front to-back-end I/O load balancing; Full-Duplex, Point-to-Point SAS Architecture, which eliminates loop arbitration for better performance; Intermix of SAS and SATA HDDs in the same enclosure; and a new management interface, which was designed for use by small to large schools without storage expertise and is common with the SMS100.

Key Features

- Hitachi AMS2000 Storage Array
- iSCSI or Fibre Channel host connectivity
- Dual Active Controllers for performance and redundancy
- Highly scalable from 5 to 480 HDDs
- High Speed SAS or High Capacity SATA Disks available
- Dynamic Storage Provisioning
- Supports RAID Levels 1, 5, 6 and 10
- On-Site support and maintenance
- Includes Hi-Track call-home monitoring
